

5

10

Part 10 - Form into a ring with color on the inside. Place inside part 9.

14

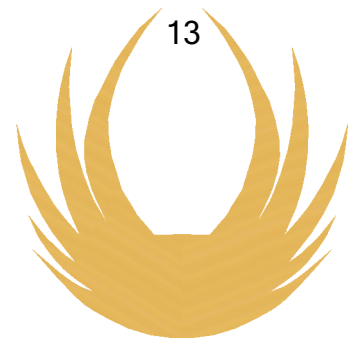

12

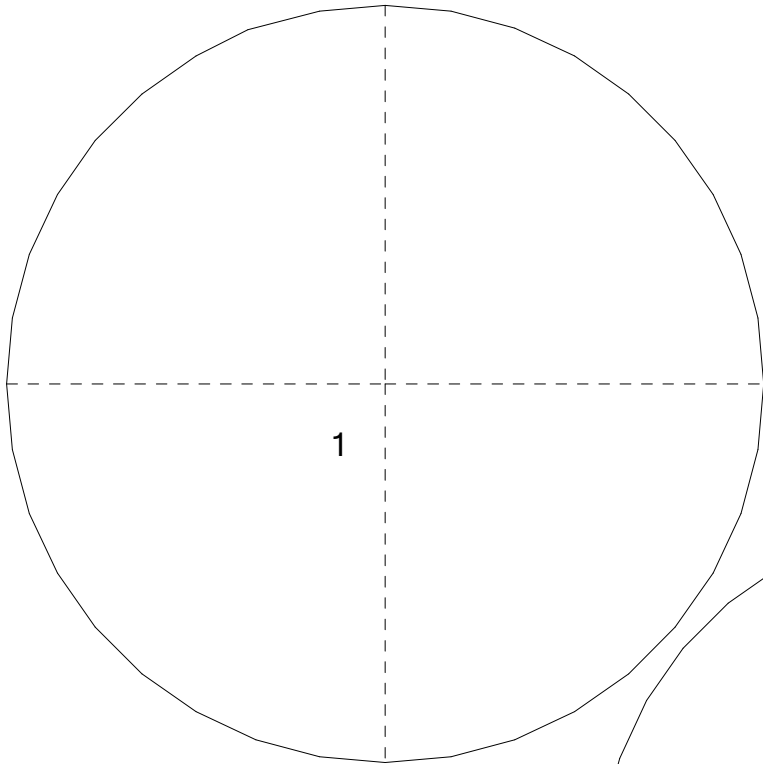

Cut out this white circle

9

11

13

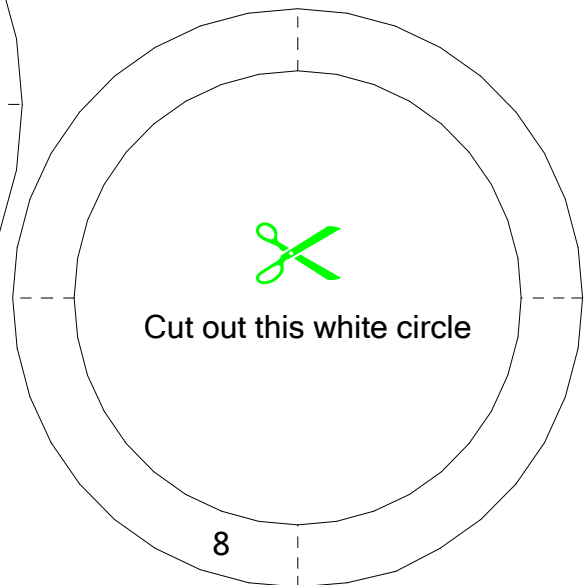

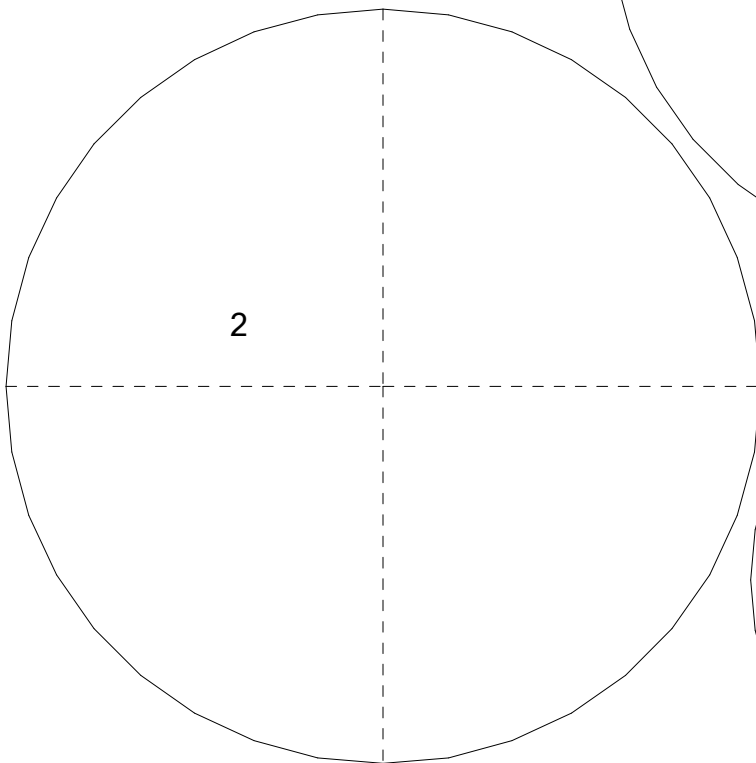

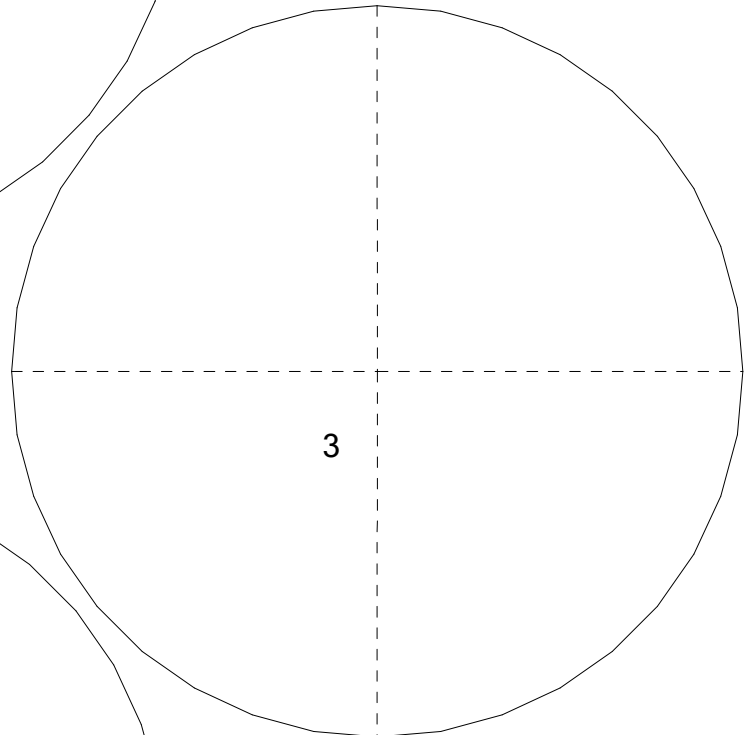

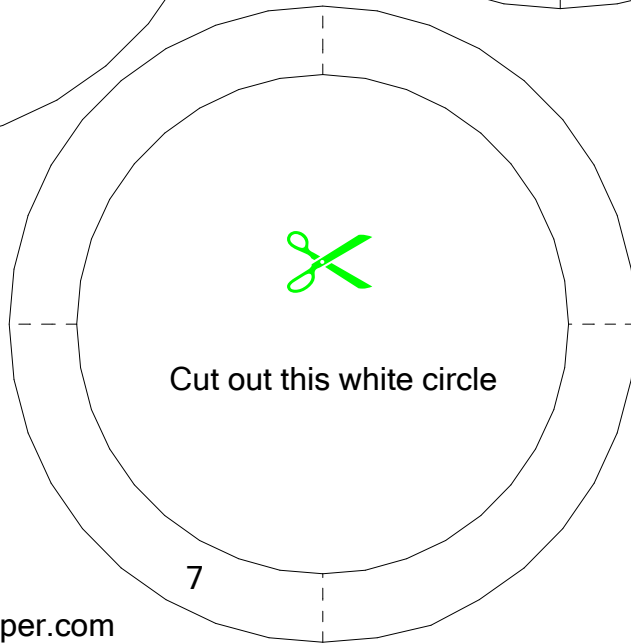

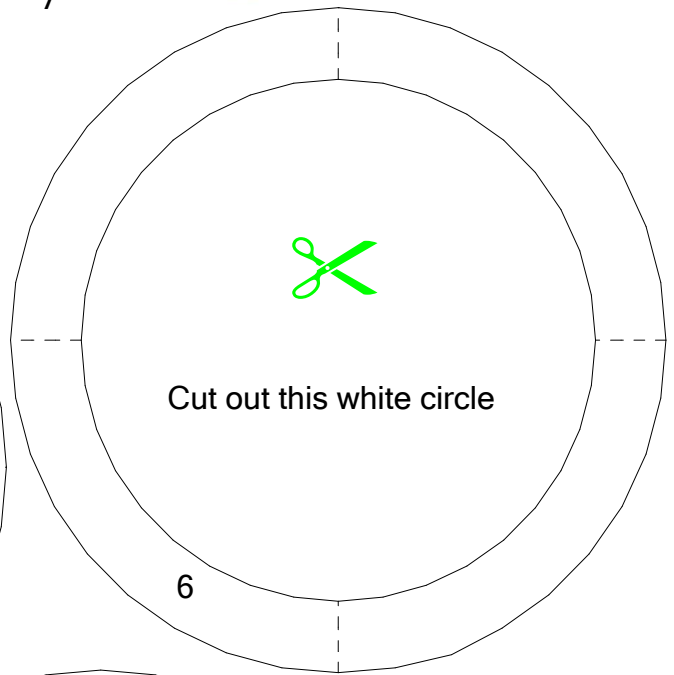

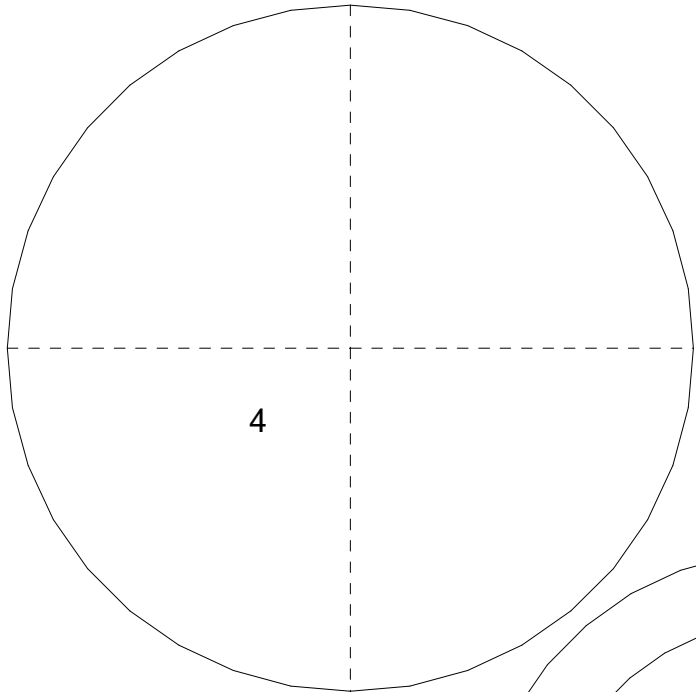

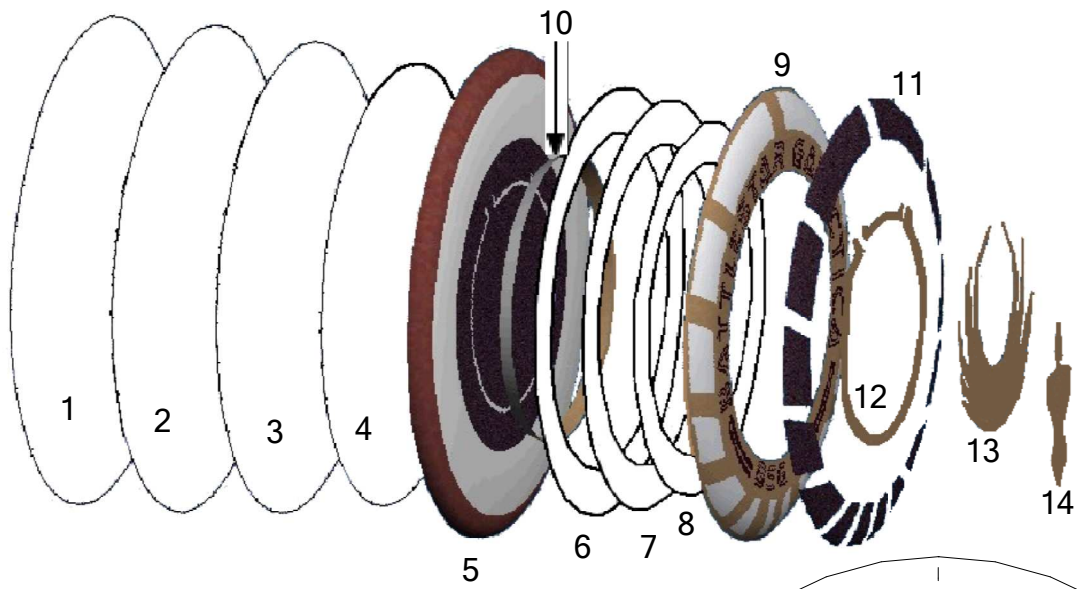

Parts 1 to 4 are for building up a solid base for part 5.

Laminate to 1mm thickness and stack in order with 1 on the bottom, and 4 on top.

Parts 6, 7 & 8 form the base for part 9.  
Laminate to 1mm thickness and stack with 6 on the bottom and 8 on top.

Parts 12,13 and 14 are duplicated since they are very thin and easily damaged during cutting.
